IF YOU HAVE SELECTED YES TO QUESTION 1, 2, 3 OR NO TO 4, 5, 6, PLEASE LEAVE THE SITE IMMEDIATELY AND CALL YOUR SUPERVISOR

Social distancing

Together, we can slow the spread of COVID-19 by making a conscious effort to keep a physical distance between each other. Social distancing is proven to be one of the most effective ways to reduce the spread of illness during an outbreak. With patience and cooperation, we can all do our part.

This means making changes in your everyday routines to minimize close contact with others, including:

- avoiding non-essential gatherings
- avoiding common greetings, such as handshakes
- limiting contact with people at higher risk like older adults and those in poor health
- keeping a distance of at least 2 arms-length (approximately 2 metres) from others
- Stagger breaks/ lunches
- Holding meetings in an outside or large space to enable physical distancing

Hygiene

Proper hygiene can help reduce the risk of infection or spreading infection to others:

- wash your hands many times per day with soap and water for at least 20 seconds, especially after using the washroom and
 - use alcohol-based hand sanitizer if soap and water are not available
- when coughing or sneezing:
 - cough or sneeze into a tissue or the bend of your arm, not your hand
 - dispose of any tissues you have used as soon as possible in a lined waste basket and wash your hands afterwards
- avoid touching your eyes, nose, or mouth with unwashed hands
- use approved disinfectants when cleaning hard high-touch surfaces
- Avoid Contact with people who are sick
- Where possible, wear gloves when interacting with high-touch areas. Do not touch your face with gloved hands. Take care when removing gloves and wash hands immediately after
- If you are ill; notify your supervisor immediately, complete the self-assessment tool and follow the instructions you get at (<https://covid-19.ontario.ca/self-assessment/#q0>)
- Avoid the sharing of hand tools and power tools. If sharing is necessary, enable sanitization of shared equipment
- Sanitize commonly touched surfaces and areas (hoists, site trailers, door handles, equipment, residential units).
- Carpooling is not appropriate during the COVID-19 State of Emergency and should be avoided.
